**Recommendation Letter**

Dear Sirs

Hereby we declare that our company – WASCOSA AG – has bought and used products of company Tenmat Ltd made from materials Railko NF21 purchased through their Austrian representative – company Unicupler Glarus GmbH. During this period, many wagons with corresponding bogies were equipped with center pivot liners and side bearers made from Railko NF21 material.

We hereby confirm that the products fabricated from Railko NF21 material, were successfully used in different subassemblies mounted on our wagons and bogies, and were conform with the specification for which they were destined.

Best regards  
WASCOSA AG
